

KN-1900H-S Davies Style1900 Knobs – 12.7mm O.D. Details

- **Compatible with 6.35mm Shafts**

The KN-1900H-S knob is meticulously designed to seamlessly accommodate 6.35mm shafts, ensuring a snug and dependable fit.

- **Vibrant Plastic Design**

These knobs are adorned with a visually appealing plastic exterior that comes in a range of striking colors. They also feature a convenient top indicator line for easy adjustments.

- **Effortless Installation**

Mounting these knobs onto potentiometers is a straightforward process, facilitated by the included screws, resulting in a hassle-free setup.

- **Diverse Shaft Compatibility**

This knob is exclusively engineered to be used with the original 6.35mm shafts and incorporates a handy set screw located adjacent to the housing.

Wide Spectrum of Color Options

With an extensive selection of colors including red, green, yellow, blue, white, black, cream, purple, orange, and brown, in addition to a transparent variant, you have the freedom to customize your equipment to match your personal style.
